Dee Dee is a third generation specialty winner and a tribute to her dam and Granddam, Beatrice. Dee loved to run the lure and, although a lady in every other way, loved to interfere with other dogs. So much for the lure! The whelping box was not meant to be as her love was saved for a Saluki kennelmate and no other. So much for puppies! As she's entering her 12th year, I have had to be content with the love of this gentle lady as my companion and will miss the day when I cannot look into her beautiful, soft eyes.
