With his regal manner and arrogant attitude towards “cutesy” people, Pounce is quite capable of dominating attention at a party while allowing carefully selected individuals the opportunity to pet a Borzoi. Pounce is now coursing quite well. As of December 30, 1994, he is only 13 points short of his ASFA title. He will be going after his AKC FC when he finishes the ASFA title. He is actively working on obedience and should be out at some obedience trials in 1995. He is a well built dog with a beautiful head and a long, properly carried tail.
