“Gris” was my second Borzoi and the first dog I ever showed. Our very first conformation class (his and mine) was in 6-9 puppies at the Houston Nationals. Neither of us knew a thing but we had great fun. Gris had an extremely elegant headpiece and agile body. He also showed a keen interest in coursing and was my constant companion. Sadly, Gris was killed before his 2nd birthday after a serviceman left a gate open. He was a very special dog and I miss him still.
