Wednesday evening

Toxicology - Myths, Internet Rumors & Home Remedies

Tina Wismer, DVM, MS, DABVT, DABT

Dr. Wismer will speak to many common household items and foods that can be potentially dangerous to our borzoï. What is really a problem and what is just myth or internet rumor? What can be managed at home and when do you need to see the veterinarian? This interactive discussion will cover everything from medications to household cleaners to foods and beyond. We will also discuss what to have on hand in case of a toxic emergency.

Dr. Wismer is double-board certified in toxicology, Senior Director for Animal Poison Control (ASPCA), adjunct university instructor, consultant for VIN, and author of numerous research articles and textbook chapters.
