# **BCOA Regional Reports**

Region 1—Fred Edlin

sent a mailing out inquiring who would be interested in working on the specialty in Region 1 in 2001, and got some replies but not a lot. However, I imagine we will be able to host a specialty then. The October BCGNY specialty went off very well, judged by Barbara O'Neill in Sweeps and Carol Spritzer in Breed. BB to Ch Sky Run Winter Nova. Next event is the Borzoi Club of New England Specialty 11/22, with Karen and Asa Mays as judges.

# Region 2—Alice Reese

he Borzoi Club of Greater Atlanta participated in a match the weekend of the Fourth of July. Vicki Sharp judged Borzoi. Mark your calendars for the following two events in Region II: October 24, 1998 Potomac Valley Borzoi Club hosted by the Middleburg Kennel Club. Regular Classes: Lorraine Marchant (Starborough Borzoi of England) Sweepstakes: Kim Horn (Karitonova Borzoi); and November 15, 1998 BCOA Supported Entry Greater Gainesville DFA. Regular Classes: Dyane Roth (Dirlov Borzoi) Sweepstakes: Ron Williams (Ridgeside Borzoi).

The summer this year has been tough on many in the region. Not only the heat but the fires in Florida were of great concern to many Borzoi kennels. I am glad to report that all came through it fine. Please, if anyone in the region wants anything brought to the Board's attention, contact me before the next meeting November 7, 1998. Phone number is 205-985-9626 or e-mail Podusham@aol.com or of course by snail mail: 5200 Sandpiper Lane, Birmingham, AL 35244 Good luck to all in our region at the fall shows!

The Borzoi Club of Greater Atlanta had a match in September that was well attended. Pam Lajam of Fomishka was the judge. They are continuing to work toward AKC recognition, and if they continue as they have, it should be soon that they will be recognized. The Atlanta club seems to be doing a great job.

I will be attending the supported entry if anyone in the region has questions or anything that needs to be brought to the Board's attention.

# Region 4—Laurie Kasowski

ince my last report on May 3, 1998 there has been two regional special ties and one supported entry held in Region Four.

BCOC supported the entry at the Western Hound Classic show on June 26, 1998 in Long Beach, California. There was a nice entry of 45 Borzoi. A BCOC meeting was held after the judging and was well attended. 1998 is the 50th year anniversary for BCOC. The summer specialty held on July 23 in conjunction with the Western Combined Sighthound Specialties was the backdrop for an anniversary celebration. It was a huge success, the Borzoi loved the cool weather, the Jewelers bronze trophies couldn't have looked more perfect, the special medallions were well received as were the lovely gold Borzoi exhibitor gift pins and all enjoyed the ringside luncheon and silent auction. As the Specialty Coordinator, I would like to take this opportunity to thank all of those who helped to make it such a success, especially Pat Ellis, Show Chairman, Keith Amado, Trophy Chairman, Leslie Henderson, catalog chairman Dottie Trulock, luncheon chairman, and last, but definitely not least, my husband, Tom who worked so hard to make this day the success that it was.

BCOC held an AKC and ASFA lure trial in Lompoc after the specialty. It was well attended and will surely continue to be a tradition for BCOC. Thanks to Linda Turner for getting BCOC involved again in the fun sport of lure coursing.

BCNC held their Fall Specialty on October 17, the day before Del Valle at the Alameda Fairgrounds. They drew a nice entry of 25 Sweepstakes for Judge John Remondi and 92 for judge Mrs. N. Runsten for the regular classes. Their Spring Specialty will be held on April 17, 1999 and the regular classes will be judged by Jay Cunningham. Sweepstakes judge is pending. Their Fall Specialty will beheld on October 23, 1999 and the regular classes will be judged by Judy Webb, Sweepstakes judge is pending.

BCOC held their annual sanctioned match on Sunday, October 25 at Portola Parkin Santa Ana. As usual, it was well attended and a wonderful day for both dogs and their owners. Shirley Rinehold judged the

conformation classes. In addition, there wwere obedience classes, an obstacle course, a costume class, lushenka class and a potluck luncheon. A raffle was held with the proceeds going to Borzoi Rescue.

BCOC's Winter Specialty will be held on December 12 in conjunction with the Los Encinos Kennel Club. Judges are Keke Kahn for the regular classes and Christine Bradley for the puppy sweepstakes classes. Show Chairman Pat &Sharon Cordova and Trophy Chairman Suzan Tintorri, promise another spectacular day. Their Summer Specialty will be held on July 29, 1999, judges will be Tom Conway for regular classes and Dottie Trulock for Puppy Sweepstakes.

A BCOA Trophy Supported Entry has been proposed for the January 8, 1999 Hound Show in Indio California, Judges will be Pat Ellis for the regular classes and Karen Mays for puppy sweepstakes.

Borzoi Rescue continues to be busy here in Region Four. Judy Lofgren and Jacqueline Gregory continue to be the heroes of this very important job. Judy reports that there are a pair of 3½-yearold white siblings that would be best placed together.

#### Region 5—Kathleen Kapaun

ur region is honored to host the National Specialty in Portland Oregon in 2000. The show site will be the Doubletree Hotel, Janzen Beach, located on Hayden Island on the Columbia River. The dates are May 20-29. The hotel has abundant guest rooms and an extremely large ballroom that will easily meet all our requirements. The primary footwork with the hotel was done by John and Michelle Rowton and Gene Kill. A regional meeting was held in May at the TSE. Members and guests that had not attended the National had an opportunity to preview the Visualization of the Standard, the BCOA cookbook, coursing pamphlet and the flyer illustrating the coverlet as well as the information for placing orders.

OBEDIENCE AND AGILITY PAM-PHLET: The committee is hard at work on this pamphlet. Debra Sharp has joined us and we are grateful for her input. This

is a challenging project with a lot of material to condense.

FUTURITY EVENT: The 1998 futurity was a success. Judge Jay Cunningham efficiently worked his way through the puppies. We are once again extending a heartfelt thank you to ring stewards Tim and Sharon Robinson. They kept the participants on track and on time. Rhanda Glenn, trophy chairman, selected and set up a beautiful trophy table.

Our summer show season is finished. We have a slow couple months and then January will be busy. I plan on attending the January shows in Puyallup and Portland. Region members please feel free to contact me if you have any concerns or ideas.

# Region 6-Kalen Dumke

he past few months have been busy here in the Midwest. Since hosting

the BCOA National Specialty, many exhibitors have been out showing and enjoying summer weather. This includes several Trophy Supported Entries: Cincinnati, Ohio in May, and the Racine supported entry last weekend here in Wisconsin. Racine weather cooperated

after almost two weeks of rain, and severe flooding to the north. Everyone was afraid that they would be running through a swamp, but fortunately, the ground was not unduly wet, and the sun was shining both days of the weekend. It was a bit warm, but situated on the shore of Lake Michigan, there was a heartfelt breeze. A number of exhibitors came from out-of-state, in addition to many local Borzoi people. There were also a number of spectators interested in learning more about the breed.

It's rather ironic that Racine hosted two Borzoi events in the past 4 months. I am wholeheartedly for TSEs and feel that they are beneficial to the club, both in getting members together, and in supporting our beautiful breed at the shows. Many spectators have the opportunity to see these dogs, and ask questions of breeders. This year at Racine Penny Keiffer did a superb job in organizing the supported entry and trophies, and a lovely picnic for all exhibitors. The picnic was free of charge, just bring your own beverage. What a wonderful way to support camaraderie among the Borzoi community.

Another event that took place was the Greater Twin Cities Borzoi Club Specialty in Lake Elmo, MN in June. This is a small but friendly specialty, in which exhibitors and spectators can enjoy not only the show

and a weekend of majors but a party at the home of Wayne and Marilyn Polsfuss. Midwesterners certainly know how to entertain and exchange Borzoi news after a day at the shows. Perhaps more regional specialties around the country could follow their example. I won't mention our west coast region, because I'm sure Laurie Kasowski will amply cover this event in her report, but they are to be commended on their most recent 50th anniversary specialty of the BCOC.

There have been several larger then usual entries, mainly due to a number of new breeder/judges, having assignments in Region 6. It is satisfying to know that BCOA members are willing to enter multiple entries in order to support these new judges.

The next star on the horizon is the Midwest Borzoi Club fall/winter specialty. This year it will again be held in conjunction with the Chicago Christmas Cluster shows in Rosemont, IL (near O'Hare Airport). The site is quite nice, although parking is in a ramp, with lots of space for grooming and spacious rings. The Judge will be Anita Gielisse, from Holland. We encourage BCOA members to support the entry.

Most people are now turning their attention to the 1999 National in Denver, which by all accounts, promises to be well attended and a wonderful location.§

# Lure Coursing—BCOA member-owned dogs

submitted by K.C. Artley

To be included in the "Top Ten" lists for AKC trials and for ASFA trials, the first owner's name listed in the publication (FAN or the AKC Awards) must be a member of the Borzoi Club of America. To calculate points: the dog gets one point for itself and one point for each dog defeated in its stake. The dog who wins BOB, by winning the runoff or by forfeit, gets additional points equal to the number of dogs in the other stake. No extra points for BIF. The second set of numbers displayed is the number of Best of Breeds wins. Best In Field wins and specialty trial Best of Breed wins made by BCOA member-owned dogs are listed separately. Send corrections to K.C. Artley, 3706 W. Jackson Rd., Springfield OH 45502-8722.

<sup>\*</sup>Eligible to compete for BCOA Annual Obedience Award. Eligibility to compete is by receiving qualifying scores in three or more trials during the year and by being a member, officially, before the qualifying scores are received. The average score will be determined by totalling the points earned in the shows, as specified, and dividing the total by the number of classes specified.

Please, whenever your dog receives a qualifying score, would you drop a postcard in the mail to Edna Ogata at 579 Cotton Street, Menlo Park, CA 94025 or e-mail to eogata@seq.org. This would help me keep on track.

# Correction for last issue's Top Producers listing

Due to the late publication of a championship title, the figures for the Top Producers on page 158 of the Summer 1998 Borzoi Connection need to be amended. Ch. Majenkir Navron Mambrino actually had 7 get finish in 1997 and Ch. Majenkir Athena of Avalyn had 5 progeny finish. The missing "puppy" is Majenkir Avalyn Winterwind, who finished 12/7/97.

# **BCOA Medal Quiz**

Over the years, BCOA has offered a number of medals for various things. One of the most popular is the National Specialty Medal.

See how much you know about the specialty medals from the past 25 years. (Answers on page 157)

- 1. How many National Specialty Medals are there? (This is a trick question.)
- 2. The practice of having a Specialty theme medal began in what year?
- 3. There have been three medals done in "relief", the others have been done in what medium?
- 4. What year's medal first featured a dark, self-colored dog?
- 5. What year's medal had the dog in three different color combinations?
- 6. What year's medal is actually a pin?
- 7. When were the first medals offered for sale?

- 8. Most medals have been designed by artists. True or False
- 9. List the three Specialty medals that are unusual in their shape.
- 10. In what year, was a lapel pin offered in addition to the Specialty medal?
- 11. Only one medal has had a silver trim, which year was that?
- 12. Which Specialty medal has brought the highest bid at a BCOA Specialty Auction?
- In 1986, a donation was made to BCOA that enabled the club to offer a Specialty theme medal. Who made the do-

# Borzoi and Hip Dysplasia

by Patti Widick Neale

Canine hip dysplasia is a common orthopedic affliction that has been

seen in nearly all breeds of dogs, though it affects medium to large dogs with greater frequency than the smaller breeds. Many fanciers are of the impression that Borzoi, and sighthounds in general, are not affected by hip dysplasia. This "common knowledge" has been passed on by breeders and exhibitors to such an extent that the fancy has been lulled into a complacency that is not healthy for the breed. The truth is, there are dysplastic Borzoi

## What is hip dysplasia?

The Merriam-Webster dictionary definition of dysplasia is: abnormal growth or development (as of organs or cells); broadly : abnormal anatomic structure due to such growth. Hip dysplasia is a heritable disease affecting the coxofemoral joint, first recognized in dogs in the 1930s.

In a normal dog the head of the femur is deeply seated into the hip socket, held in place by ligaments, the joint capsule, and the surrounding musculature. Though a puppy is born with normal hip joints, they are composed of cartilage which is a rather pliable tissue. For the two surfaces of the ball and socket of the hip joint to continue to develop together in a smooth, mechanical alignment they must remain in close contact.

A dog that possesses the genes for hip dysplasia develops a looseness or laxity in the structures that hold the ball in the socket. Due to the resulting space between the two surfaces, both the head of the femur and the acetabulum will develop and wear unevenly. As the abnormal pressures on the joint continue, both bones will compensate by thickening or scarring in some areas and wearing away in others, a process called remodelling. The femoral head is forced further out of the socket (subluxation), which becomes increasingly shallow from the arthritic changes. This vicious cycle progressively destroys the joint over time, which results in pain and lameness for the dog.

Environmental conditions can influence both the rate of progression and the degree of degeneration of the hip joint. Particularly in large, fast-growing breeds, skeletal growth and muscle development are not well matched. Puppies that carry more weight than average for their breed and age, have been shown to manifest the signs of dysplasia sooner than their lighter littermates by placing an additional strain on muscles that already are not keeping pace with rapid bone growth. Forced exercise, constant slippery footing, and over-supplementation may exacerbate the signs of hip dysplasia but these factors are not the cause of the affliction. The genetic tendency toward joint laxity always precedes the accelerating environmental factors.

The Orthopedic Foundation for Animals (OFA) and the University of Pennsylvania (PennHIP), have developed standard evaluation procedures for evaluating hip conformation, and both maintain registries of radiographs submitted for assessment by their trained analysts. OFA statistics are the focus of this article.

# The origin of the myth

Borzoi have received OFA numbers at the average rate of just over 20 dogs per year for the 24 years that OFA records are available. In the first ten years, the per-year rate was 26 dogs per year, indicating that few Borzoi owners thought their breed likely to need testing. Borzoi are a large, fast-growing breed, so by that criterion, they should not be immune to disease that has been seen in all other large and giant breeds. So how did the myth begin?

In the early 1970s, a study was done on the relationship of muscle mass to hip dysplasia. Three breeds were used; German Shepherd Dogs, a type of Foxhound called July Hounds, and American Greyhounds, a breed in which hip dysplasia was

unreported, and which have as much as 50 percent more pelvic muscle mass than breeds that commonly have dysplasia. The greyhounds were all racing-bred dogs; no show-bred Greyhounds were used. The results of the study indicated that large pelvic and thigh muscles go together with good hips.

A report of that study was part of a book called Canine Hip Dysplasia and How to Control It written by Drs. Wayne H. Riser and Harry Miller, under the auspices of the OFA. It was the definitive piece on hip dysplasia available to the dog-owning public, at a time when awareness of the disease within the fancy was in its infancy.

Greyhounds did not have hip dysplasia. Greyhounds were sighthounds. Borzoi were sighthounds and built similarly to Greyhounds. It was an easy error in logic to assume that Borzoi did not have hip dysplasia as well. The OFA statistics for the few Borzoi radiographs submitted prior to 1984 bore that out with a dysplasia rate prior to 1984 of just 0.6% or 2 dysplastic submissions during that period. So Borzoi breeders could feel safe in the knowledge that their breed was exempt. Average yearly submissions declined.

But racing Greyhounds are a unique breed. Their tremendous genetic muscularity is unparalleled among large breeds. They have been selected for one thing, pure speed on the flat, for 90 years in this country. Any track Greyhound with bad hips (read slow) isn't allowed to live long enough to reproduce the problem so the speed criterion has effectively eliminated dysplasia. The economic reality of the racing industry eliminates testing. Only 14 Greyhounds received OFA numbers before 1984 so the small Greyhound fancy wasn't adding much data either.

#### The OFA record

The Orthopedic Foundation for Animals is a voluntary, semiclosed registry. It is voluntary, since the owner of a dog decides whether or not to submit a given radiograph of their dog's hips, good or bad, to the OFA. Dogs with hip conformation in the normal range, are assigned a sequential number within their own breed. It is a semi-closed registry, in that the records of dogs who fail to receive a normal hip rating are not available to the public. This limits its usefulness as a tool to select genetically sound breeding stocks as affected relatives of cleared individuals cannot be identified.

The problem with a voluntary registry is that OFA statistics are heavily weighted on the side of normalcy. This means that dysplasia is under-reported, as much as 2-3 times the OFA figures, according to a survey done at the University of Pennsylvania's Veterinary Hospital. The owner's veterinarian makes a preliminary assessment of the x-ray, and tells the owner if the hip conformation is or is not likely to pass or fail. The evaluation fee is sent with the film to OFA, and there are mailing costs involved as well as paperwork. If an owner believes his dog is unlikely to pass, he is already discouraged with the bad news and in many cases will not bother to complete the submission process without other incentive.

It is the OFA's position that this prescreening process affects all breeds in a similar manner. If that were the case, then one could use the Borzoi's negligible reported incidence of affected dogs compared to other breeds, to conclude that HD in Borzoi is virtually nonexistent. But there are a number of factors that create significant differences between breeds in the number of radiographic submissions, both qualitative and quantitative.

### What's the difference?

Many parent clubs, in breeds that have had a high incidence

of HD, have ongoing programs to increase awareness of the disease, and codes of ethics for their members that require testing of breeding stock. Though no breeder can be forced to comply, the most effective method of encouraging compliance used in many of the Working, Herding, and Sporting breeds, is the restriction of advertising in the club publications to dogs that have hip (and often other health) clearances, and to puppies with two cleared parents.

Other breed clubs use education and peer pressure so effectively that no fancier would consider breeding a bitch or using a stud dog without an OFA number. The educated puppy buyer expects their puppy's parents to have OFA numbers as well.

In some of the rare breeds, where the spirit of cooperation among fanciers for genetic testing could be critical to survival of the breed, nearly all breeding animals are tested, as well as littermates, and the resulting information is shared for the good of the fancy.

Each of these factors create social and economic incentive to breed only from OFA'd animals. The need to have an OFA number provides greater impetus for the owner to submit any x-ray, not just the ones their own veterinarian is certain will pass, hoping for at least an OFA Fair rating. Without an OFA number, even a Fair rating, their dogs and puppies will be far less marketable. Because if this economic and peer pressure in certain breeds, a greater number of films are submitted and a higher percentage of dysplasia is reported.

Borzoi breeders have had no such incentives, either to x-ray in the first place, or further, to submit questionable films. Therefore, the 20 or so OFA submissions, in a breed where there are more than 1200 dogs born each year, makes the OFA record statistically useless as a measure of HD in Borzoi.

In a three-year period, 1992 through 1994, only 75 Borzoi received OFA numbers. Of that number, 26 Borzoi, more than one third, were from the same kennel, one with a fairly isolated gene pool. From all appearances, most or all Borzoi within this kennel's litters were x-rayed. This is admirable for the kennel and is good science; testing all littermates is the most effective testing method for identifying and eliminating an undesirable trait. However, with this kennel's contribution to the database removed, the average number of other Borzoi certified in each of those three years was only 12, which reduces the significance of the stats to the breed at large to nothing more than a curiosity.

Several other sighthound breeds have a higher incidence of hip dysplasia than Borzoi, notably Afghan Hounds, but Irish Wolfhounds, Ibizan Hounds and Salukis and now even Greyhounds are also listed, which further erodes the supposition of sighthound immunity to hip dysplasia. Because of the low number of dogs tested in the latter four breeds, the significance of their OFA record is similar to that of Borzoi. Among sighthound breeds, only the Afghan Hound approaches statistical relevancy.

The truth is, there are dysplastic Borzoi. While it can hardly be considered a major breed problem, denying its existence based on the limited OFA data available is foolhardy. To paraphrase a famous saying, the price of freedom from genetic diseases is eternal vigilance.

# What can be done?

For the OFA data to have any significance for Borzoi, so that there is a realistic assessment of the occurrence of HD within the breed, there needs to be a large number of dogs x-rayed, and the resultant films, both those that look good, and those that look questionable, sent in to become part of the OFA database.

The price structure for OFA hip or elbow certification favors submitting multiple films for evaluation at the same time. The cost for one dog is \$25.00, or \$60.00 for a group of three or more littermates. Five to ten dogs brings the cost down to \$12.50 each, or half-price, and for additional dogs beyond ten, there is no charge. Several breeders could get together and send their films (with forms supplied by their own veterinarians) in a group to

# The Aristocrat

take advantage of the reduced fees, and the results would be sent back only to the individual owners and their own veterinarians. In that way, the economic impact of submitting all films, not just the best ones, would be minimized, and the Borzoi fancy as a whole would benefit from the resulting increase in the accuracy of the information.

The OFA will accept obviously dysplastic radiographs without a fee, for inclusion in their database.

#### About the data

Prior to 1974 an OFA number could be assigned to dogs assessed at twelve months or older. Studies found the accuracy of the readings was improved to above 95% on a more mature skeleton, so since 1974, 24 months has been the minimum age for issuance of a permanent rating. The record of Borzoi OFA numbers starts with number 118. The previous numbers were assigned before OFA started using a computer in 1974 and OFA does not have those old records in its database.

From 1974 until 1987 the only notation about hips that met OFA's criteria was "normal". Beginning in 1987 normal hips were further designated "fair", "good", and "excellent".

The OFA number is made up of several parts. The first letters, "BZ" indicates the breed, followed by the sequential number of certification within that breed. The next letter, E, G or F, is quality rating for normal hip conformation: excellent, good or fair, followed by the age in months at which the dog was evaluated. M or F stands for male or female, and if followed by a T, indicates that the dog was tattooed.

For the last few years, AKC has included OFA numbers of individual dogs and their parents on registration forms and in certified pedigrees if the dog has been rated at the time of registration. As of July 1, 1996, AKC only accepts OFA evaluation results for dogs that are positively and permanently identified at the time of testing, usually by tattoo or microchip so the dogs reported in the Gazette each quarter may not reflect all that have been cleared

From now on, BCOA will publish the names and numbers of all Borzoi cleared by OFA quarterly.
