# BCOA Health Committee Report

Submitted by Ginger Jones, BCOA Health Committee Chairman

I would like to publicly extend my sincere appreciation and recognition to the following members who have donated funds to support the BCOA clinics, seminars and health research projects throughout this past quarter. It is through your support and your interest in the health and longevity of the Borzoi breed that we are able to accomplish so much in such a short period of time.

Terry & Billie Thibeaux  
Elizabeth Skipper  
Jack Seerest  
Lynne & Mike Bennett  
James & Dianne Tilley  
Paul & Christine Danker  
Julia Temperley  
Farron & Rebecca Peffer

Thank you for your contributions to Borzoi health!!

## LATEST HEALTH RESEARCH INFORMATION:

**Mapping Genes Associated With Osteosarcoma In Large Dog Breeds –** Grant # 6897673. This BCOA co-sponsored study is now at the end of the first year phase of the two year funded research project being conducted by Kerstin Lindblad-Toh, PhD at the Broad Institute, Cambridge, MA. The year end report looks very promising and the study is progressing very well. Samples of both affected dogs and non affected dogs are still needed to complete the study. They are hoping to receive 20 of each affected and non affected borzoi to include in this study. To date, they have 2 affected and 5 healthy controls. The age requirement for unaffected controls is 8 years or older. There is no age requirement for affected dogs. If you are willing to participate in this study, please contact either of the following co-principal investigators:

Kerstin Lindblad-Toh, Ph.D

**Neonatal Encephalopathy:** The AKC Canine Health Foundation is pleased to announce that researchers at the University of Missouri College of Veterinary Medicine

have mapped the disease locus, identified the mutant gene and the mutation causing the disease, and devised a DNA test which distinguishes normal, carrier, and affected Standard Poodles with Neonatal Encephalopathy.

**Fanconi Syndrome:** The AKC Canine Health Foundation announces that Dr. Gary Johnson's laboratory is closing in on the genetic cause of Fanconi Syndrome (FS) in Basenjis. Canine Fanconi Syndrome is an inherited adult-onset kidney disease, common among the breed. FS, an inherited disease, is a major health concern for the breed. With this syndrome, the tubules in the kidney, for unknown reasons, fail to do their job of reabsorbing nutrients into the dog's system.

**Merle Patterning Gene:** The AKC Canine Health Foundation announces that Dr. Keith Murphy's laboratory has published its findings describing the genetic cause of merle coat patterning in dogs. Dr. Murphy is Professor, Department of Pathobiology at the College of Veterinary Medicine and Biomedical Sciences of Texas A&M University and has been funded by the CHF for various projects. The findings are significant in that dogs with merle patterning often suffer from deafness and ocular abnormalities. Therefore, the merle findings will certainly assist future research concerning these canine health issues. You can read more about this study and its finding at: [http://www.akcchf.org/news/index.cfm?article\\_id=138](http://www.akcchf.org/news/index.cfm?article_id=138)

**Canine And Feline Genomics Conference:** The AKC Canine Health Foundation and Nestlé Purina PetCare Company are proud

to be sponsors of The Third International Conference on "Advances in Canine and Feline Genomics and Inherited Diseases" will be held **Wednesday August 2 thru Sunday August 6, 2006**, at the School of Veterinary Medicine, on the Davis campus of the University of California. The conference will bring together researchers studying the genomes of dogs and cats, as well as those studying comparative genetics, hereditary diseases and polymorphic traits. ## REWARD AND RECOGNITION:

I would like to extend huge CONGRATULATIONS to Karen Mays on her recent election to the Canine Health Foundation Board of Directors. We are so very fortunate to have someone so talented and dedicated from our borzoi community to serve on this prestigious board. I wish you the very best of luck on your new assignment. What a truly exciting time to be a part of canine health research! Asa would be so proud of you. Enjoy!

Correction from last BC publication regarding the method of tabulating points for the OFA Champion of Health award: We will utilize the points from the Annual Versatility Award, not the ROM system to determine a candidate to submit to OFA.

Here's wishing all of you and your beautiful borzoi a wonderful summer, safe travels on your vacations and the best of health to you and yours! §

## Open Field Coursing NACA

The Top Open Field Coursing Borzoi for 2005 is Follyqtrs' Svetlana Zoyanova, **Svetlana**, owned and bred by Margaret Rice. During her first season of competition, which started this fall, she defeated 62 Borzoi. In addition, Svetlana was the overall winner of the Borzoi Fall Classic, which had an entry of 26 this year. The only Borzoi to earn her open field title during the year was FC Rassim's Domroeschen at Téine, NACM, NACC, **Daru**, owned by Anne Midgarden. She, too, started her coursing career in October and won the first three breed hunts she entered. Over fifty Borzoi competed in open field coursing this year. The majority of them were owned by BCOA members.

Please note these statistics and standings are not indicative of all Borzoi who open field course throughout the U.S.

# BCOA 2005 Final Obedience Statistics

**Jan 1 to Dec. 31, 2005, AKC AWARDS  
as submitted by Bonnie Nichols**

There seem to have been less Borzoi in the Novice classes for 2005 but more in the advanced classes. In order to qualify for the Top Award, the dog must have received at least 3 scores for the year. I have listed the rankings of all other dogs, by score, regardless of the number of scores. Congratulations to all the Borzoi and their owners/handlers in obedience for 2005 and keep up the good work for 2006.
