AKC Introduces Advanced Levels of Recognition For Breeder of Merit

Reprinted with permission from the America Bloodhound Club. Written by Mary Lou Olszewski.

1. Program Overview:

The Advanced Levels of Recognition for Breeders of Merit were introduced to recognize those breeders that have achieved great success in their breeding programs producing dogs that have excelled in AKC competitions in their owner's chosen AKC sports. It is a tribute to breeders that not only can produce dogs that can win, but can place those dogs in the appropriate homes where they can reach their potential.

Breeders are encouraged to introduce and mentor new owners in the multitude of opportunities that AKC dog sports offer for them to enjoy with their new dog. Bringing new people to the sport on any level strengthens our community and helps ensure continuity of our breeds and breeders into the future. Arming new owners with information on the various event offerings and clubs in their local area just might entice a new owner to become a new exhibitor. How many of us started on the path of training/showing with a dog that was purchased with the sole intent of being only a house pet?

2. Recognition

In addition to all the benefits of the Breeder of Merit program,

Recognition Level & Required Titles on dogs Bred/Co-Breed*

Breeder of Merit - Current: Minimum of 4 dogs earning titles

Breeder of Merit - Bronze: Minimum of 10 dogs earning titles with at least 5 earning prefix titles

Breeder of Merit - Silver: Minimum of 25 dogs earning titles with a Minimum of 15 dogs being prefix titles

Breeder of Merit - Gold: Minimum of 50 dogs earning titles with a Minimum of 30 dogs being prefix titles

Breeder of Merit - Platinum: Minimum of 100 dogs earning titles with a Minimum of 60 dogs being prefix titles

the Advanced Levels of Recognition will be displayed on the Registration Certificates and the Marketplace listings as the BOM recognition is now. Breeders will receive a new Breeder of Merit recognition certificate on approval of the new level application.

3. Requirements

Advanced Levels of Recognition will require an additional application and will also be recognized on a breed specific basis.

Recognition is available to those that meet the following minimum standards:

- Have qualified and enrolled as a Breeder of Merit
- Can provide proof of Parent Club required health testing on parents of litters
- Have met their commitment to ensure that all their puppies get registered
- Breeders who have produced a number of titled dogs will be recognized at the following levels:
* AKC event titles only.

Both prefix (Champion titles in all venues) and suffix titles recognize titles in AKC Conformation, Companion, and Performance events.

BCOA 2017 Obedience Rankings

for BCOA member-owned Borzoi, January 1 to September 30, 2017

Corrections to June Mintchell, PO Box 31, N Manchester, IN 46961, rmintchell@yahoo.com

The first person listed as the dog's owner by AKC must be a BCOA member to be included. To be ranked #1 overall at year's end, a dog must have at least 3 QS from the regular classes and all QS from the regular classes will be averaged for that dog. To be ranked #1 in any particular class at year's end only 1 score is needed.

UTILITY

	Av Score	#QS
1. CH Riju Fun & Games JC, UD, GO, VER, BN, RN, NJP, R & J Mintchell	194	2

BCOA 2017 Rally Rankings

for BCOA member-owned Borzoi, January 1 to June 30, 2017

Corrections to June Mintchell, PO Box 31, N Manchester, IN 46961, rmintchell@yahoo.com

The first person listed as the dog's owner by AKC must be a BCOA member to be included. To be ranked #1 overall at year's end, a dog must have at least 3 QS from the regular classes and all QS from the regular classes will be averaged for that dog. To be ranked #1 in any particular class at year's end only 1 score is needed.

Started in 2016 was the offering of an OVERALL #1 dog in rally. Same rules apply to rally as to obedience. A minimum of 3 scores are needed to be the OVERALL #1 dog. All of the dogs scores from rally are averaged so if a dog competes in more than level all of his scores are rolled into one. Just like obedience, only 1 score is required to be #1 in any given class. PLEASE NOTE that my e-mail addy as listed under coordinator in the membership book is incorrect as it is missing an 'l' on the end of my name.

RALLY EXCELLENT

1. FC Kirov Strike It Rich At Highpoint CD, RA, MC, LCX, OA, NAJ, OF, CGC, A & W Ford.....	96.33	3
2. FC Riju Enjoy The Ride SC, CD, PCD, BN, RA, J Mintchell & A Midgarden.....	96	2

INTRODUCING THE BCOA HOLTER RENTAL PROGRAM

What is it for?

Designed to provide low cost Holter (24-hour ambulatory ECG) rentals to BCOA members.

Who can rent a Holter?

BCOA members who are:

- Breeders who wish to screen their dogs for heart defects that can cause cardiac arrhythmias such as:
 - sudden cardiac death
 - occult dilated cardiomyopathy
- Owners who have dogs needing periodic Holter exams as a part of continued care/monitoring for cardiac arrhythmias.
- Individuals who have normal dogs who wish to contribute to a borzoi heart study.

What does it cost?

To rent the Holter:

\$70 - For standard Holter rental for one dog
(if more than one dog tested during a single mail-out - \$60 for each additional dog).

-OR-

\$40 - For people who agree to share the Holter results and health information on their tested dog for the borzoi heart study.
(if more than one dogs is tested during a single mail-out - \$30 for each additional dog).

To have the results read

Once you have finished recording your dog's heart rhythm for 24 hours you will send the data to ALBA Medical
\$30 - For a basic reading - includes a Holter report (this will be Greek to anyone without experience/ knowledge about cardiac ECGs)

-AND/OR-

\$50 - for cardiologist interpretation (recommended) if you use the cardiologist assisting with the heart study or ALBA Medical's cardiologist.
(you may also use your dog's cardiologist but their fee will vary)

To return the equipment

\$45 (approximately) to mail the Holter back with appropriate level of insurance

Total cost to you will range from - \$120 for the most basic service (\$40 rental + basic reading + return shipping) to \$200 (\$70 rental + basic reading + cardiologist interpretation + return shipping) depending on which options you choose. OFA submission will cost extra.

How do you rent a Holter?

Contact Leslie Walenta (Holter Committee Chair) at
borzoigirls2006@aol.com

The BCOA Holter Rental Program A new way to evaluate Borzoi hearts

For years, breeders have depended on an OFA cardiac auscultation to screen for cardiac problems in their breeding prospects. As Doppler echocardiograms have become more widely available, breeders have utilized this tool to help screen for cardiac abnormalities. Now the BCOA is offering another way to evaluate borzoi hearts through its low cost Holter rental program.

The costs of screening tests can add up very quickly, so it is important for breeders to be fully informed about what each of the three cardiac screening tests that are now available to them can and cannot tell them about the hearts of their dogs. This will help breeders make the best decisions for their particular breeding program. Auscultation, Doppler echocardiogram, or Holter testing, which do you need to include in the pre-breeding health screening program for your dogs?

First, as with other screening tests, one single cardiac screening cannot provide information for the life of the dog. These tests must be repeated periodically throughout the dog's life. Further, it is very important to understand that any form of OFA screening test should never be considered to provide a definitive diagnosis. These are reduced cost/ short duration exams. they are designed to catch potential issues while the animal is still apparently healthy. Any abnormalities found should be further investigated by a board certified veterinary specialist to determine a diagnosis and course of treatment, if needed. No dog should be removed from a breeding program based on an OFA screening exam alone. Further evaluation and discussion with a veterinary specialist should be sought before a decision is made.

Cardiac auscultations have long been the gold standard for cardiac screening. But what exactly will an auscultation tell you? Basically, it will tell you if a dog has a detectable murmur. An auscultation involves the use of a stethoscope to listen to the heart from several locations on the dog's chest. The purpose of this exam is to identify cardiac murmurs. The intensity and location of the murmur along with a thorough physical examination help the veterinarian begin to move toward an understanding of what may be happening in the heart. However, the findings of an auscultation should never be considered to be diagnostic. A murmur can be heard without any cardiac defect present. Dogs with mild forms of inherited cardiac deformities such as sub aortic stenosis may not produce an audible murmur yet the dog will pass the genetic defect to its offspring. Even dogs with dilated cardiomyopathy may not produce murmurs heard through auscultation. The benefit of cardiac auscultations is that they

are inexpensive and quick. The disadvantage is that auscultation has limited utility for guaranteeing that your breeding animal is free of a cardiac defect. Bottom line, when a dog passes a screening cardiac auscultation, it means that on the day of the exam, the examiner did not hear a heart murmur. That is it. It does not mean that the dog is proven to be free of any cardiac disease on that day and it absolutely does not mean that the dog will be free of any cardiac disease for life.

Echocardiograms use ultrasound to form an image of the heart. The

Be A Rockstar—Holter Your Borzoi!

Contact Leslie Walenta (Holter Committee Chair)
borzoigirls2006@aol.com**

marvelous utility of the echocardiogram is its ability to actually “see” the structure of the heart, show the heart in motion, and—with the use of color Doppler—observe the movement of blood through the heart with each cardiac cycle. The cardiologist can actually see the heart valves as they open and close. They can measure how much each cardiac ventricle contracts and relaxes. The heart is “seen” as it functions. When you add Doppler to the echocardiogram this excellent diagnostic tool becomes even more powerful. One can see the relative motion and speed of the blood within the heart with Doppler. This allows one to actually see the blood escaping through leaky valves or a hole in a wall between chambers. This test allows the cardiologist to evaluate the structure and muscular function of the heart.

ASFA New Title Holders

Submitted by Leonore Abordo, borzoi_oxota@yahoo.com

Field Champion (FCh)

Coverdales' Vivaldi At Zanoza - Liz Duncan-Burge
Del Sol Hermes Boots - Susan Van de Water
Gladkii Veter Papi - Harry Van Vliet
Kirov Wind Glider At Highpoint - Anne & Walter Ford
Starswift FV Saga - Leonore Abordo
Starswift Let Freedom Ring - Martine & Stewart Burton
Téine Zharkov Lucky Luciano - Jill & Steve Woith
Wildhunt Joie De Vivre At Highpoint - Anne & Walter Ford
Zoiboyz Hamilton - KC Thompson & Tom Golcher

Lure Courser of Merit (LCM)

Del Sol Firebolt of Coburn WNS - Susan Van de Water MD PhD

LCM2

Del Sol Dark Canyon Avalon V Willowind - Susan Van de Water MD PhD

LCM3 & Veteran Field Champion (V-FCh)

Del Sol End of Reason WNS - Susan Van de Water MD PhD

As powerful as a screening echocardiogram is, if the structure of the heart is within a normal range and the flow of blood shows no anomalous movement then the dog passes the test. Why would this be a problem? Because, we have cardiac problems in borzoi such as dilated cardiomyopathy (DCM) where the heart will look perfectly normal, until suddenly it doesn't. In the case of DCM, until the heart muscle begins to weaken and its ability to pump blood diminishes, a dog will pass the color Doppler echocardiogram. In fact, in the case of DCM, an echocardiogram may not identify a dog at risk for developing DCM a mere few months before the onset of symptoms. However, an echocardiogram can identify changes in the heart caused by DCM before one might hear a cardiac murmur or see noticeable changes in the dog's health or behavior.

Bottom line, when a dog passes a screening cardiac color Doppler echocardiogram it means that the structure and function of the heart and the blood flow within the heart were all within normal ranges at the time of the exam as based on the skill and interpretation of the cardiologist performing the exam. It does not mean the dog is free of any cardiac disease for life. It does mean, in most cases, that gross structural abnormalities that are congenital or not late onset are absent. Unfortunately, the test is expensive and has a limited availability depending on where you live.

Holter testing has a confusing name that has nothing to do with halters. The apparatus used for this test is named after one of the co-developers of the first version of the device, Norman Holter. A Holter test is a 24-hour—or more—recording of the electrical activity of the heart (ECG). This information is collected on a Holter monitor through electrodes attached to the dog's chest. The pages of information that is gathered must be interpreted by a highly trained veterinary specialist.

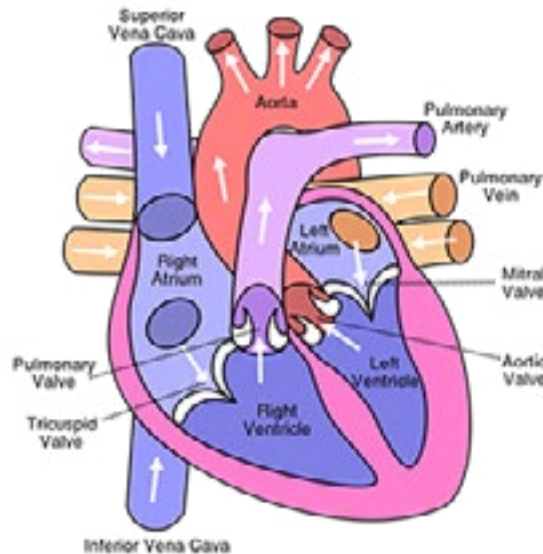

While auscultations tell you about murmurs and color Doppler echocardiograms tell you about the muscular structure and physical movement of the heart as well as the nature of the blood flow within, neither of these tests have much utility in identifying how the heart's electrical system is working. Each beat of a heart is made possible by an electrical pulse that spreads in a systematic way through the heart muscle. These electrical signals must be timed correctly and travel the full and correct pathway in the right amount of time. Anything that disrupts either the production or spread of this electrical signal can have a severe impact on the heart's ability to do its job. If one thinks of walking, all goes well as long as one's legs move at the right sequence, speed, and extent for the speed one's body is moving. Imagine the catastrophic results if one's legs were to move into place either too late or too soon. The repercussions of a timing mistake when walking could mean a fall and skinned knees. The repercussions of arrhythmias could mean death because the heart is no longer capable of pumping blood.

There are inherited defects impacting the cells that transmit the heart's electrical signal that will cause disruptions in the heart's rhythm of beats (arrhythmias). This type of cardiac defect produces no change to the structure of the heart and no murmurs. Auscultations and color Doppler echocardiograms are not good tests for identifying dogs with arrhythmias. Detecting an arrhythmia either with auscultation or color Doppler echocardiogram means either that one was very lucky or

that irregular heartbeats are so numerous that a 5-10 minute exam will detect them. DCM can also cause cardiac arrhythmias. As the heart muscle changes over time, alterations in the heart's electrical signal as it travels through the heart occur. This produces irregular beats. These arrhythmias can be detected before any physical changes to the heart muscle can be seen with a color Doppler echocardiogram.

So, how is it best to screen for heart disease? As with all things dealing with biological beings, the answer is; "it depends." It depends on the age of the dog, the reason for doing the screening exam, and the cardiac problems that have been seen in the ancestors of the dog to be tested. Each person must decide what screening tests

have the greatest chance of identifying the cardiac abnormalities most often seen in the lines they are using. Now, with the BCOA Holter Rental Program, you have a new tool for cardiac health screening.

Aristocrat Mission Statement

The Aristocrat is the official publication of the Borzoi Club of America and is published quarterly in order to inform, educate and entertain the members by providing historical and current information on the Breed and issues affecting the well-being of our Borzoi.

Statement of Intent:

It is the intent that the Aristocrat:

- Serve as a record of BCOA and its activities
- To provide a convenient forum for the reporting of statistics on the accomplishments of the members in conformation and performance events.

Policies

- Deadlines for submission of material for the Aristocrat are February 15, May 15, August 15 and November 15. A separate Specialty issue may be offered so that the results can be published as soon as possible after the National.
- Deadlines established by the Aristocrat Committee will be strictly adhered to.
- The right to reasonably edit all material or refuse to print material thought to be questionable or not in the best interest of the breed or Club is reserved by the Aristocrat Committee and the Editor.
- Only signed letters or articles will be accepted for use.
- Only Borzoi-related artwork will be utilized for the cover of the Aristocrat. If artwork is not available for a particular issue then the Club Logo shall be utilized for the cover.
- The following material will be published in the Aristocrat issue immediately following the National Specialty:
 - o Photos of the recipients of the Annual Awards in:
 - Conformation
 - Best Opposite Sex in Conformation
 - Obedience
 - Open Field Coursing
 - Lure Coursing
 - LGRA
 - Breeder of Top Conformation Borzoi
 - Top Junior Showman
 - o Photos of the Specialty Conformation and Performance Winners
 - o Judge's critique of Conformation classes
 - o Catalog pages and performance results
 - o Candid photos as available

Guidelines

- Articles submitted by BCOA Committee Chairs will be included as available
- Any claims or statements by writers in the Aristocrat represent their own opinions and are not necessarily those of the Aristocrat Committee or the Officers and Directors of the Borzoi Club of America.
- All content is subject to the final approval of the Aristocrat Committee.
- Results and photos from BCOA Trophy Supported entries will be included as provided by the TSE Show Chairman.
